1. Klicken Sie auf den [INSTALL] Button und folgen Sie den Anweisungen auf dem Bildschirm, um die Installation abzuschließen.
2. Für Windows 10 / 8.1 / 8.7 / Vista Benutzer: Wenn auf dem Bildschirm [Benutzerkontensteuerung] angezeigt wird, klicken Sie auf [Ja], um die Installation zu starten.
3. Nach der Installation wird das [CamShop] -Software-Symbol auf Ihrem Desktop angezeigt.

Français

1. Insérez le CD dans le lecteur de l'ordinateur. Le CD s'exécutera automatiquement, puis un menu d'installation apparaîtra à l'écran.
2. Cliquez sur le bouton "autorun.exe" pour lancer l'installation.
3. Pour les utilisateurs de Windows 10 / 8.1 / 8.7 / Vista. Si l'écran [Contrôle de compte d'utilisateur] apparaît, cliquez sur [Oui] pour lancer l'installation.
4. Une fois installé, l'icône du logiciel [CamShop] apparaîtra.

Nederlands

1. Plaats de CD in de CD Speler van de computer. De CD start automatisch en het installatie menu verschijnt op het scherm.
2. N.B.: Als de CD niet automatisch opstart, zoek dan op de CD het bestand "autorun.exe" en dubbel klik hierop om de installatie te starten.
3. Klik [INSTALL CAMSHOP] en volg de instructies op het scherm om de installatie te voltooien.
4. Voor Windows 10/8.1/8.7/Vista gebruikers. Als [de gebruikers controle] melding verschijnt klik [Ja] om de installatie te starten.
5. Als de installatie van [CamShop] voltooid is verschijnt het programma icon op het bureaublad.

Polski

1. Wsuń Płyte CD z oprogramowaniem do napędu komputera. Płyta CD z oprogramowaniem uruchomi się automatycznie, a na ekranie pojawi się menu instalacji.
2. UWAGA: Jeżeli Płyta nie uruchomi się automatycznie, zlokalizuj napęd na komputerze i kliknij dwa razy na plik "autorun.exe".
3. Kliknij [INSTALL CAMSHOP] i postępuj według instrukcji na ekranie, aby zakończyć instalację.
4. Informacja dla użytkowników systemu Windows 10/8.1/8.7/Vista. Jeżeli pojawi się ekran [Kontrola konta użytkownika], wybierz [Tak], aby rozpocząć instalację.
5. Po instalacji ikona oprogramowania [CamShop] pojawi się na pulpicie.

Moonwatch 5:00 AM.
James Wond. Safe was
unlocked
Saw. Beta I
at 5:20:36 sighting "1"
between clouds.
Out at 5:30

Dec 20

11:25 Hall-Pollatz-Klein
with a couple foreign students
clear, rather cool. Out at 1:30

Dec 21
+34°F

4:20 A.M. Albrecht & Halbach searched
for Sputnik II. too cloudy.
Albrecht has talked new 2nd magnitude
Halbach remained to work variable stars.
Left 5:10

+29°F

6:30 P.M. R.A. James & Tom
Tann

seeing starting to become poor about 8:15 due
to clouds. Closed up at 9:15

Dec 23

Hall-Pollatz-Klein 11:35 out 6:45 PM
Albrecht Saw Sputnik II
Osypowski for short interval at
Upson Ky 16:05:29 PM.
Tom

Dec 24

12:30 AM - 2:45 Osypowski, Wond
photographed Orion
sky very clear

Dec 24, 1957

5:00 PM -

Albrecht, Ozykowski
James, Tomin, UporskySighted Sputnik II at 17-41-40
Two good sightings - 1 mag.

John Miff

Dec. 25, 57

11:50 AM. - 12:50

R. G. James

replayed tape from Dec 24
to obtain photo. times:

Raining

Dec. 26. Arrived 1:25 PM. Found

Ben March

Satellite room door torn
off by wind. Nailed it up
as best I could, no tools. Must
have been torn off by wind. Too
much play at lock.
left abt. 2 pm,

Dec 26:

Albrecht & Ozykowski arrived at 3:50 PM.
+24° Clear Uporsky, Hall, March.
Clear but I saw no satellite.
Left at 5:20

Dec 26-7 12:25 AM - 2:30 AM - 18° CLEAR. E. Wind (7-7-102-119)

Dec 27

Ben March. Put longer screws in
hinges & latch. very unsatisfactory set up.
Lock could be picked. a pad lock
would be better. About 11:10 am to
1 PM. (My watch stopped)

Dec 28

Wind, Ozykowski, Cameron 6:20 - 10:45
Tenn 10° Good observations Puffinbl
