7-10-92 Jan Kuehler 9:15 - 10:15

Comet Shoemaker Levy - found just
south of Deneb, at Perseus position
predicted. Mag $\approx$ 6.8 to 7.2, somewhat
brighter than predicted at ~~2:50~~ 2:50 UT (Jul 11)
Clouds intervened about 10:00 p.m. Very short
for full somewhat evident. Waxing g. moon
a problem.
