

# the DOUBLE DOME

Issued by the  
MILWAUKEE ASTRONOMICAL SOCIETY

Director - Edward Halbach  
President - William Collins

Vice Pres. - Virgil Tangney  
Treasurer - Ray Ball  
Secretary - Mary Tangney

MAY - 1970

## MAY MEETING

As far as the society is concerned, another year is drawing to a close. In retrospect, our meetings were again spiced with an impressive array of well known personalities as well as a number of interesting films and features, thanks mainly to Vice President and Program Chairman Virgil Tangney.

The May, 1970 meeting will be the last for this season at the UWM location. The June Picnic-Meeting will be held at the Observatory, and, by action of the Board last year, there will be no general meeting during July and August.

This month's meeting will be divided between the Board Member Election and the showing of three films - Apollo 12, Planets in Orbit, and Comets, Meteors, and Planetoids - if time permits. Plan to attend! Bring a guest!

When: Friday, 15 May, 1970 8 p.m.

Where: Room 137, Physics & Eng. Bldg.

Corner of E. Kenwood Blvd. and N. Cramer Ave.

## BOARD MEMBER ELECTION

Your Board of Directors will require five members to fill impending vacancies. Harvey Lindemann, assisted by Albert Brouillette and LeRoy Simandl, have prepared a slate of Board Member Candidates. Their names, as drawn by lot, are Messrs. Virgil Tangney (inc.), Fred Rehorst, Garth Hall, James Toeller, Robert MacLaren, and William Collins (inc.). Other candidates may be nominated from the floor.

The voting will take place during the regular business meeting. The ballots will be counted by members of the JOMAS.

Nominees should attend the meeting if possible, so that they may be presented to the members present.

## JUNE PICNIC-MEETING

The June Picnic-Meeting will take place at the Observatory Sunday, 21 June, 1970. More in next month's D. D.

## 1970 OPEN HOUSE PROGRAM

This year's Open House will be held on the last two Monday evenings in July and the five Monday evenings in August.

As in the past, the Observatory facilities will be open to the general public with a program in the lecture hall to make the evening complete and, we hope, enjoyable.

Since Harvey Lindemann is in charge of Society Publicity through radio and newspapers, large groups of guests can be expected, which means a lot of help is needed - 'scope operators, parking lot attendants, guides, personal 'scopes of any size, and men or women to give a short, ten or fifteen minute talk geared to a general, inquisitive audience.

Select any night(s) you desire. The jobs will be simple and pleasant. If you'd like to help, call Chairman Lee Simandl at the number or address at the end of this notice.

## OBSERVATORY NEWS

Now that the harsh winter has retreated under an attack of balmy zephyrs led by old Sol, some sprucing up is necessary. This means werk-parties Earth Days in and around the Observatory. Director Ed. Halbach has a fifteen foot list of things to be done - something for the young, the old, the weak, the strong, things that require a few minutes, a few hours - suit yourself. There'll be coffee and buns for the survivors.

And see our new rider-mower!

Sat. May 16, from 8 a.m. 'till?, and Sunday, May 17, from 1 p.m. 'till?, have been proclaimed Observatory Earth Days.

Want to see Ed Smile? Show up!

## JOMAS SCHEDULE

Keyholders in charge -

May 9 - Donald Ramthun (543-6635)  
May 16 - Len Schaeffer (786-8220)  
May 23 - LeRoy Simandl (933-3052)  
May 30 - Charles Simono (543-0266)  
June 6 - Virgil Tangney (281-6533)  
June 13 - James Toeller (352-7144)

JOMAS Leaders, call Keyholder before 4 p.m. on observing night.  
JOMAS members, call Dave Street (774-8957) or Greg Latsch (771-1752) for information.
