

# The Milwaukee Astronomical Society

## 2009 Public Observing Schedule

*Celebrating  
The  
International  
Year  
Of  
Astronomy!*

<http://www.astronomy2009.org/>

April 3	Saturn
May 1	The Moon
June 20	The Sun *
August 14	Perseid Meteors
September 25	Jupiter
October 16	Galaxies

All Public Observing sessions begin at 7:30 PM.

\* June 20th session will start at 3:00 PM

A 20-minute presentation about our topic will be repeated throughout the event. Club members will be available to answer your questions and be your guide to the Universe. For more up-to-date information about the Milwaukee Astronomical Society please visit us on the web at [www.milwaukeeastro.org](http://www.milwaukeeastro.org)
